

Model GL Force Gauge

The Dillon GL Force Gauges measure both compression and tension, weight and force. Includes many features not found in a gauge at this price. Rugged metal die cast enclosure, backlit LCD display and serial output. Powered by the internal rechargeable battery or directly by its 120 VAC charger. Displays Newton, pound-force and kilogram-force units of measure at 2000 division resolution. Choose from six capacities.

The GL is supplied with a convenient carry case that also stores six popular grips/fittings and the charger. Also includes a calibration certificate and user's guide.

The GL may be used hand-held or mounted with its threaded hole pattern. The CT Manual Test Stand is a perfect match for the GL.

Quick Couplers & Adapters

Dillon's quick-couplers are ideal to:

- quickly attach and remove grips from a force gauge and/or
- connect items with different threads together

Any upper section mates with any lower section.

Part Number	Thread Size	List Price
Upper Section (<i>typically connected to gauge</i>)		
AWT15-500196	M6 x 1	\$45
Lower section (<i>typically connected to grip or fixture</i>)		
36299-0053	10-32	\$45
36299-0038	1/4-20	\$45
36299-0020	5/16-18	\$45
AWT15-500197	M6 x 1	\$45
